Page	Table	Title	Base Description	Base
1	1	Data derived from:- Q.A Some people have said they would not vote in a new General Election, while others would go and vote at their polling station. I would like to know how certain it is that you would actually go and vote in a general election? Q.B The Conservatives, Labour, the Liberal Democrats and other parties would fight a new election in your area. If there were a general election tomorrow which party do you think you would vote for? Data excludes those who definitely will not vote (12%), don't know who they would vote for (17%) or refuse to answer (9%) THIS TABLE DOES NOT INCLUDE ADJUSTMENT FOR DONT KNOW/REFUSERS		
2	2	Published Vote Intention Figures Percentages derived from the responses of 709 respondents		
3	3	Q.1 How confident would you say you are that you are saving enough in a pensions scheme and elsewhere for your retirement?	Base: All respondents (excluding those already retired)	780
4	4	Q.1b Would you say you saved enough in a pension scheme and elsewhere for your retirement?	Base: All respondents who are retired	233
5	5	Q.2 In order to make increases in the state pension The Pension Commission is set to suggest that the age people can claim their full state pension should rise over time from 65 to 67. Which would you prefer...?	Base: All respondents	1013
6	6	Q.3 Some people think that people should be required by law to save for their retirement rather than being allowed to rely only on the state pension. Would you be in favour or against the legal requirement for people to save for their own pension?	Base: All respondents	1013
7	7	Q.4 Some people think that employers should be forced to contribute to the pensions of their employees. Would you support the government making some sort of pension contributions compulsory for employers?	Base: All respondents	1013
8	8	Q.5 The Pension Commission is expected to recommend the creation of a national pensions scheme to top up the basic state pension which everyone is enrolled into but which allows them to opt-out of if they do not wish to contribute. Would you yourself be in favour or against such a scheme?	Base: All respondents	1013
9	9	Q.6 The Pension Commission is also expected to recommend that the state pension should rise in line with average earnings rather than average prices as it presently does. This would mean increases in the pension would be somewhat larger than at present because average earnings rise faster than prices. Which would you prefer?	Base: All respondents	1013
10	10	Q.7 Who do you trust with your pension?	Base: All respondents	1013
